### KILLED BY AUTO IN GARAGE.

GORDON RAN INTO OPEN ELE-

VATOR WELL. Thrown Out on His Head-Fall of Six Feet

Proved Fatal-Machine Was Going

Slowly, and Friend Looking On Never

Suspected Danger-Auto Not Damaged. J. Emmet Gordon, garage superintendent for Smith & Mabley, dealers in automobiles and power boats at Fifty-sixth street and Broadway, was killed in an automobile accident yesterday. He was thrown from a light runabout of small horse-power,

which was simply crawling along from a starting point but six feet away.

The accident took place in the basement of the garage in which Mr. Gordon was employed. In it many automobiles are stored and several are kept ready for daily use. They are conveyed back and forth from the street level by an elevator large and strong enough to lift the biggest auto-

mobile in the place. Mr. Gordon had arranged to take a friend. Frank Clark, to the West Forty-seventh street police station, to have him sworn in as a special officer by Inspector Walsh and Capt. Daly. The light electric runabout which he was in the habit of using for spinning about the city stood only six feet from the door of the elevator. Mr. Gordon signalled for the elevator, and himself, his employers think, raised the fireproof

door guarding the elevator shaft. With the intention probably of simply running the machine to the edge of the shaft, or perhaps out of pure absent mind-

## BEDROOM FURNITURE REDUCED ONE-THIRD

From incomplete and sample suites we have taken the odd Bureaus, Beds, Chiffoniers and Toilet Tables and marked them at one-third reduction.

## GEO C FLINT CO.

WEST 23d STREET

# Splendid New Furniture

In the Midwinter Sale At Prices One-Fourth to One-Third Less Than Macy's Regular Prices.

ND that means sale prices averaging about one-half the regular prices such Furniture commands elsewhere. No old Furniture involved-we cleared away the discontinued designs in January sales and shaped stocks for receiving and introducing these new patterns. Manufacturers cooperate generously. They recognize, in great annual trade movements of this character, their best opportunities for introducing the new products of their factories.

Charge Account Conveniences at Macy's.

START A DEPOSIT ACCOUNT AND HAVE YOUR PURCHASES REFERRED TO IT FOR PAYMENT. It differs very greatly from the usual form of a charge account. You have ALL the CONVENIENCES of an

ordinary charge account at a credit store—you have EVERY ECONOMY Macy's STRICTEST CASH SYSTEM affords, and, in addition, you get 4 per cent. INTEREST on

your daily balance, compounded every three months. Deposit any sum that suits your convenience. Make purchases in the usual way, and have them "charged" in the usual way—to the money you have on deposit. Statements will be mailed to you monthly. The money you deposit is NOT tied up. You are privileged to withdraw any or all of it at any time. We do no BANKING business.

Clark puts it, that "it would have been arrested for loitering if on a public street."

Clark did not notice his friend's danger.

Mr. Gordon did not perceive it himself.

He did not turn off the power or reverse

arrested for loitering if on a public street."

Clark did not notice his friend's danger.
Mr. Gordon did not perceive it himself.
He did not turn off the power or reverse
the lever. But of a sudden the front
wheels slidover the edge of the shaft and Mr.
Gordon tumbled forward.

The bottom of the elevator shaft was
but four feet below the flooring of the
basement, and the superintendent could
not have fallen over six feet, but he struck
headforemost against the ironwork at the
bottom of the shaft. His skull was fractured and he died an hour later in Roosevelt
Hospital.

bottom of the shall. His skull was fractured and he died an hour later in Roosevelt Hospital.

The automobile was not damaged by the mishap. The brakes were found open and the power turned on.

Harry Vares, who was operating the elevator, stopped the car sharply on hearing the crash beneath. He was at the first floor when the accident occurred, and would have been down to the basement in another second. Under the assumption that he had negligently left the elevator door open, he was arrested. He was bailed out by his employers, who do not consider him responsible for the accident.

Frank Clark, who was to have gone to the West Forty-seventh street station with Gordon, went there alone and reported the case, but not until two hours after the accident. Policeman McGrath of that station, meanwhile, summoned by employees

accident. Following a McGrath of that station, meanwhile, summoned by employees of the firm, had made an investigation, arrested the elevator man, taken him to the West Side court and gone to the Coroner's office. McGrath did all this without reporting to his station. Capt. Daly, it was said last night, will prefer charges against him.

ESTATE OF RUBY TILDEN PAINE. Little Left for the Tilden Boys After Their

Debts Are Paid. Supreme Court Justice O'Gorman has approved the accounts of the executors of the estate of Mrs. Ruby Tilden Paine. who died in December, 1896. Under this judgment the final division of the estate can now be made, after nine years of litigation. The estate amounts to \$474,336, according to the report of Charles W. Day-

ton, referee. Mrs. Paine was the niece of Samuel J. Tilden and the wife of Willis S. Paine, formerly president of the Trust Company of America and a figure in State politics. On her death a search of her papers produced no will, and Paine got letters of administration. Some months later Mrs. Paine's sisters, Henrietta T. Blatchford, Caroline B. Whittlesey and Susan T. Sabin, began proceedings to establish the existence of a lost will, and while these proceedings were pending Paine, two years after his wife's death, announced that he had discovered a will among some old

Under this will Paine received an anshaft, or perhaps out of pure absent mindedness, Mr. Gordon jumped into the runabout and turned on the lever. The machine moved forward slowly, so slowly, as the has relatives in Lexington, Ky., his shaft, or perhaps out of pure absent minded against him.

Was said last night, will prefer charges against him.

Gordon was 30 years of age and unmarried. He lived at 169 West Eightieth street. He has relatives in Lexington, Ky., his brothers of Mrs. Paine, George H. and repairs.

just in.

Samuel J. Tilden, Jr., and the three sisters.

The brothers got into financial difficulties while the litigation over the will was pend-

while the litigation over the will was pending and judgments were taken against them, to enforce which more litigation was begun around the estate. As matters stand now, before they can touch any part of their sister's estate judgments for \$60,247 must be paid to Thomas F. McDermott, as assignee of claims against George, in addition to another judgment for \$3,000 held by the National Hudson River Bank. The same bank holds a judgment for \$47,080 against Samuel, which must also be paid out of his share. When these payments have been made the greater part of their shares will have been eaten up by the judgments.

SAVING MONEY ON CITY FERRY.

Boats to Run at 20-Minute Instead of

15 Minute Intervals.

The Staten Island municipal ferryboats

ran vesterday afternoon in the rush hours

at twenty minute intervals instead of fifteen,

as heretofore. It was said that the fifteen

minute headway does not permit the boats

will reduce the coal consumption made necessary to attain the high speed to keep up the shorter schedule.

Dock Commissioner Bensel expects to cut down by nearly one-half the yearly running expenses as estimated by former Commissioner Featherson. Three boats will be in service in the rush hours, one will be hald in reservice and to take the place of the
